When Policy conditions or an excerpt of the same are required to be issued in a language other than Spanish, in the event of litigation, the conditions in the Spanish-language version shall prevail over all other language versions.

To activate the Medical Expenses guarantee, it is necessary to contact the assistance center. The insurance medical team will be the one who manages and directs the health care provision. Consequently, those cases in which a refund is requested and the process has not been opened due to lack of contact with the assistance center will be excluded, having acted under the initiative of the insured or others and in assistance situations that are not considered serious. In cases in which assistance is requested once the benefit has begun by a third party not directed or coordinated by the medical insurance team through the assistance center, the expense incurred up to that moment will be deducted from the amount to be covered, or an excess of €75 will apply.
